12:00 PM

When I got off work I went to pick up Chance from my mother's. It was a little after 10pm when I got home with him. As we were walking up to the door I noticed the door was cracked open a little and I remembered locking it that morning when I left. As I walked through the door, no lights were on and I felt something wet splash on me. Chance was holding onto my pants leg so he was possibly splashed as well. He was 3 years old at the time. I walked over and turned kitchen light on and Trista Kennedy-Peterson was standing there holding a bottle of rubbing alcohol. She turned and picked up a lighter and flicked it once and nothing happened. She flicked it a second time and her whole body was engulfed in flames. I ran towards her to try to help put out the fire and she started running towards the bathroom. In the process of trying to help her, I went up in flames as well. I was on fire from the top of my head down to my neck. After I stopped the fire from spreading, I went to the kitchen sink to spray myself off. All of her kids were present when this incident happened.

Trista immediately started saying that I couldn't tell the truth about what she had done for the kids' sake saying Chance would be taking from us and she would lose all her other kids. I knew we both needed to go to the hospital. The babysitter was also there and witnessed what happened. She stayed with the kids and I went to Johnson City Medical Center. Trista said she needed to go to a different hospital so they couldn't figure out the truth of why we were both burned so bad. She went to Bristol Regional Medical Center. She had 3<sup>rd</sup> degree burns to her whole body. I also had 3<sup>rd</sup> degree burns to my head, face, and neck. I was in ICU for several days.

I didn't have health insurance at the time so when I was released I feel that's why they didn't give me any cream or antibiotic. I went to Walgreens in Jonesborough to get a burn cream and a stranger pulled me to the side and told me he was a doctor and that I needed to go to the hospital because my burns were life threatening. I told him I just left the hospital. He told me he would see me in his office and write me a prescription for antibiotic so I wouldn't get a bacterial infection. He said regardless whether I had insurance or not the hospital should have not released me due to the extent of my burns especially without antibiotics or proper wound care. He said he was going to make an Active Labor Complaint against the Johnson City Medical Center. My sister drove me to his office at Watauga Recovery Center. He wrote me a prescription for an antibiotic and suboxone for pain.

My sister drove me to Walgreens in Jonesborough to get prescriptions filled and then she took me to the Washington County Sheriff's Department to file a report on the incident and the officer laughed at me and said there was nothing they could do because I didn't file it the day of the incident. I explained to him that I was just released from the hospital. I asked for a supervisor and again was told there was nothing they could do. I have been to the Washington County Sheriff's Department over 20 times trying to get them to open an investigation and no one helps me.

Trista admitted to me to having an affair with a Washington County Sheriff's officer. His name is Officer Ethan Brotherton. Since finding out, Officer Brotherton has tried to cause problems for me. He came to my place of business and opened the garage door and he called in 40ft tractor trailers to load up my building materials saying they were stolen. I asked to see the warrant and Officer Brotherton said he didn't have one but he was taking the materials. I

PS Now since IVE failed complaint with DOJ

File let change me two more times IVE been picked up

told him I had receipts from Lowe's, Home Depot, and Builder's First Source and he said he didn't care about receipts, he believed it was stolen. He said he would arrest me if I tried to stop him. If him or his supervisor see me, I am pulled over and arrested without cause or false charges that have since been dismissed. They've executed search warrants on my home looking for guns and ammo. Nothing has ever been found in these searches. They have also entered my home without a warrant or my permission claiming to be looking for a certain individual, breaking doors and trashing my home. Officer Brotherton told me on one occasion that if I went back to try to file a report against Trista over setting me on fire, he would make sure drugs and firearms would be found on my property. Officer Brotherton has put me in jail numerous times. On one occasion was for a car wreck that didn't happen. That caused my license to be suspended. Another time for Aggravated Assault that my was my brother but I was also arrested for it. Another time I was arrested for aggravated assault on a neighbor saying I had a gun and the neighbor went to court with me and admitted he lied. I was also made aware that statements were made from Washington County Sheriff's Department in TN to Washington County, VA police that I was nothing but a thieving piece of shit. I was charged with 2 counts of grand larceny in Washington County, VA which has since been dismissed but I spent 31 days in jail plus bonds. Officer Lloyd of Washington County, VA knew I had purchased a truck from someone and that I didn't steal it. My home security cameras were running while he told me this so it is recorded. Trista has taken out several Orders of Protection against me that Officer Brotherton signed off on. I was arrested 3 different times for this and spent several days in jail. Another time I was at Browns Mill Rd. Walmart with my niece at self check-out and all of sudden I was told to go with Johnson City Police Department because they thought I was trying to shoplift. I told them we were having trouble with the scanner. They immediately ask me what Officer Brotherton's problem was with me. I was arrested. I had cellophane with marijuana for a joint in it but the officer put in the arrest warrant that I had 4 Percocet and something looking like broken glass so I was charged with methamphetamine. Now DCS believes I am on drugs.

Trista has made at least 20 allegations of me using drugs with DCS. My brother, Michael said she has videos of me doing drugs. These videos are from 2017. I have been clean and have passed probably 19 drug tests for DCS. She got a nexus burner pre-paid phone. She has been able to hack every phone I get even using different phone companies. I went through Sprint, T-Mobile and even Straight Talk and she still gets in my phones somehow. She changes my settings, location and turns on Bluetooth. She gets my contact lists and gets my text messages. She has also been able to audio record me. I have made complaints with phone companies and even google. She seems to be concerned with my drug use and try use it against me, even though I've been clean, to prevent me from reporting her about the fire but she has been using her kids urine to pass her drug tests for jobs and DCS. My son, Chance has even told me he had to pee for mommy.

I also purchased a bobcat. I received a call to do some work in Elizabethton. Carter County police were there at job site when I arrived and arrested me for Theft over \$10,000. I posted bond and was left in Carter county jail for 3 days before Washington County came to get me. I posted bond in Washington County and it was 38 days before I went in front of Judge.
